

OAN

APR 17 1963

From: Commandant
To : Commander, Fourteenth Coast Guard District (d)

Subj: French Frigate Shoals LORAN-A Station; rehabilitation of

1. The Joint Chiefs of Staff (J-6) have advised the Commandant by enclosure (3) that the LORAN-A coverage provided by French Frigate Shoals LORAN-A Station is required until at least 1968. Accordingly, repairs necessary to operate this station for that period of time must be made. It is not visualized that extensive repairs to the bulkheads will be attempted. Since AC&I funds will not be provided for complete repair, this station should be placed on the scheduled Loran station rehabilitation program.
