22 MAY 1957

Serial: 301CPA

From: Commandant
To: Commander, Fourteenth CG District

Subj: AC&I Projects; French Frigate Shoals Loran Station

Ref: (a) CCGD14 AC&I Project Report No. 24, Rev. 1 dtd 2 Jan 1957
(b) CCGD14 AC&I Project Report No. 27 dtd 2 Jan 1957

1. References (a) and (b) are approved in principle and placed on file in the Advance AC&I Program.
2. Due to a continuing critical shortage in AC&I appropriations, the date of receipt of funds for these projects is unpredictable. Future operation of French Frigate Shoals Loran station should be continued as at present, utilizing all practicable means to extend the useful life of the airstrip and to prevent further erosion of the island. The Commandant should be kept advised of any material change in existing conditions at French Frigate Shoals.
