1. Regretfully, the issue of funding for subject support has not yet been finally resolved.
2. The Office of Management and Budget has denied our request for additional funds for future funding of this requirement. Likewise, the Department of Defense has declined to provide the necessary funding.
3. The Secretary of Transportation has formally advised the Secretary of Defense that funding must be forthcoming and a new agreement consummated if we are to continue support of these stations beyond 30 June 1975.
4. Until this matter is resolved, minimal SH-30 funding will be provided you not to exceed the present level of support for LORTAD.
