1. Commander, Coast Guard Section, Philippines will be the storage point for all PHILSEC Loran stations' Loran Recorder charts and Loran logs.
2. Commanding Officers will insure subject logs and charts are properly marked and forward to Commander, Coast Guard Section, Philippines.
3. Loran operations records must be complete for one year prior to the day of turnover. Recorder charts are to be changed upon turnover of command and control of each station with all U. S. Coast Guard records closed out and forwarded to Section. Philippine Coast Guard will install fresh charts and start new logs marking the beginning of Philippine Coast Guard operation.
4. The U. S. Coast Guard Commanding Officer will bring the last of the records with him to the Section when he is relieved of command.
