27 April 1971

FIRST ENDORSEMENT on CGLORSTA BATAN ISL Report of Loran Station Operation and Electronics Engineering for period 1 March 1971 thru 31 March 1971 (CG-2899)

From: Commander, Coast Guard Section, Philippines  
To: Commander, Fourteenth Coast Guard District (o)

Subj: Report of Loran Station Operation and Electronics Engineering

1. Batan's requisition for a T101 transformer was directed to NSD Subic Bay, the most rapid delivery point. NSD Subic did not properly advise non-availability due to a computer breakdown. Follow-up action by COMPHILSEC disclosed the requisition had been forwarded by NSD Subic, but they had not advised Batan. Replacement transformers were then borrowed from Naulo Point and Talampulan and flown to Batan.
2. Batan's requisition has since been filled and the transformer delivered on the flight of 20 April 1971.
