I arrived in Thule during a phase 3 and spent the next three days wondering what in hell I had gotten myself in for. I recall that George was the only person I knew even came close to scoring with the girls from the USO. Anderson had the greatest looking beard and appeared to be someone's vision of a Viking. Hinkle jinxed out the slots in Thule and they disappeared after he hit jackpot in nearly half of them. Served in Cape Atholl 4/70 to 4/71.

Was the DC2 for the year 1958/59. Was there with ET3 Jim Woodle , ET3 Machado , Glen Bean, ENC Lampson, ETC Trimlett, EN3 Snuffy Smith, SN Koocher and our GREAT COOK was CS1 Green. I think Doc Barnes was the corpsman. Charles Glass was the CO. I have forgotten other names. Other than being isolated I did enjoy that tour. Retired CWO

I was one of the lucky ones - only on station for 3, 4 months. The Danes came in to take it over. Trying to remember the date now, but I do know I arrived at Thule in a snow storm. Left the end of May, early June in the sunshine. Anybody around remember when the Danes came in???

Hey Stan Freed, you still wearing that eye patch and the fu manchu mustache? I was that skinny Greek kid from New Hampshire (4/69, 4/70) pretending to be the base photographer. Had dark hair and a lame excuse for a beard---still skinny, but less hair. I remember all of us getting up close to a polar bear on the helicopter pad and the CO forgetting to load the rifle--pretty neat seeing a bunch of guys walking backwards to safety! Lots of laughs! Tried your e-mail, but no work? Take care, George

3/69-3/70 I wonder if 'Lucky' still holds the record for shooting a fox while standing buck naked in the john. Hard to beat that one. Bet he still has a scar in his left arm from when he shot himself while loading his 22 rifle. By the way, Hi Hink.

Tom Chapman - good to hear from you! I was CO 7/65 to 8/66. Aside from the family separation, one of the best and most educational tours I ever had. Great support from ARRS - I remember the last month I was there we had 28 days when the chopper just happened to stop by about lunch-time! I remember the dogsled ride to Thule in Feb when choppers couldn't make it (we had to restock the exchange SOMEHOW!) Still have my collection of tupelaks!

Did my year at the cape 5/66-5/67. Got there as an HM2 and made 1st class a few months later off the CG's first SWE. Was just out of 'B' school and, being ex-Navy, didn't know that I had an express ticket to a LORAN station. Despite (mostly) great people, good chow, USO shows, chopper rides, etc., it was a very long year! Sure shot good pool for a while after I left though.

I was stationed at Cape Atholl between 3/67 to 5/68. I was there the same time when a B-52 crashed just before Thule AFB. And I would locate others Coasties who were there. I remember our 'Doc' making us treat the water, it seemed odd it had to have been cleanest water that one could imagine. I also remember the soda and beer prices; \$.10 for soda and \$.12 for Bud. We had some great USO shows there, also the helicopter crews used to like coming out to our bas because our food was so much better than what they could get.

Daniel F. 'DAN' Coulters, Jr. ET1 07/55 to 07/56 - ended up in this Arctic paradise just three weeks after getting married. In the spring of 1956, after bulldozing water diversion channels to prevent the antenna array from being washed away, a group of the more hardy (less intelligent??) walked the road (that's what they called it!!) to Thule and back. This was in my first and last hitch - at that time because of the shortage of ETs, it was likely that I would have seen two or three LORSTA assignments - I did enjoy my four years in the Coast Guard and am currently actively involved with the auxiliary.

I traveled to Cape Atholl from Thule by jeep in June of 57. the trip was 6hrs of bone jarring bladder busting fun with

occasional stops to move rocks and look for the snow poles that marked the road.I remember Jim Badger, Frank Pappen Vincent Bair or Bear and the smell of the ETC's pipe. but after 40 yrs a lot is pretty dim. would like to hear from the RM at Cape Christian and anyone who served at the cape Atholl LORSTA in 57 & 58..
