From: Commandant
To: Commander, 7th Coast Guard District

Subj: Loran Transmitting Station Folly Island, South Carolina; maintaining a closed gate at

1. The action of the Officer-in-Charge in maintaining a closed gate at subject unit as reported in 7th Coast Guard District letter 16 June 1949 (CG-100) is approved.

2. Subject unit's Operational Data Report dated 20 March 1949 indicates that week-end traffic of 200 or more cars bringing visitors into the station reservation is fairly normal and states,"****the gate will be closed at all times and opened only for properly identified people on Government business". In view of the fact that the unit has only a small crew, and that its buildings and property are spread over a considerable area, it is deemed that the prohibition against unauthorized persons entering the reservation is a reasonable and appropriate measure of security, and therefore it is likewise approved.
