Dear Sir:

You will note that the enclosed copies of letters are concerned with the future of Folly Beach Strand and as the U.S.C.G. owns and operates a Radar Radio Station "Lorraine" at the East End it also becomes a problem of our U.S. War and Navy Dept. and Coast Guard Division of same; therefore if all that are concerned will endeavor to contact the departments that are responsible for the correction of this Erosion, we can get same corrected.

We will appreciate your help in this endeavor.
Thanking you, I am

Sincerely yours,

/s/ A. Murray Benson
