I wasn't in the Coast Guard, but lived on Molokai '99-'01 and ran the nearby ARINC radio site (Ralph Faust ran it back then). I visited the old site and took a few photos of what was left. Big signs are posted that it is an unexploded ordinance area and to keep out, but all the buildings have been gutted and vandalized. The only things that haven't been stolen are the generators. Write me if you're interested in more info.

I was an ET2 on Molokai Loran. I remember the old Dodge truck that we took to town. The last I saw the vehicle it was parked next to the Chevron station in Kaunakakai. Anyone remember the old Man stating "If you are going to eat peanuts in bed, get rid of the shells" Connie's bar.
