Subj: Point Arguello Lifeboat Station; comments concerning status change

Ref : (a) CCGD11 (dcs) ltr to Comdt (OSU) dtd 29 July 1954 (N)

1. In reply to reference (a), there is no objection to the proposed reduction of subject station to a limited status.

2. The proposed rehabilitation of the barracks building at the Loran Transmitting Station to provide quarters and messing facilities for the reduced lifeboat station crew is not considered economically justifiable in view of the present condition of the barracks and your AC & I Project No. 101, which is included in the Fiscal Year 1956 Budget. The planned replacement of the barracks at the Loran station by family quarters makes the expenditure of any additional funds on the barracks, other than for emergent repairs, infeasible.
