

CONFIDENTIAL

Detailed Information¹
Sitkinak Island

1. Proposed LORAN-C tower site is located on Sitkinak Island, Trinity Islands, Alaska at 56° 32' 22."80N and 154° 07'37."37W and is 20.6 feet above MSL. An airstrip, 6600 feet in length running N44°-30'E, is adjacent to the tower site. The geometric center of the runway is 96.6 feet above MSL while the highest point of the runway is 99.4 feet above MSL. The proposed tower site bears N76°45'E from the geometric center of the airstrip and is 2822 feet distant. Appendix A is a graphic illustration of the general area.
2. Appendix B is a copy of the FAA letter regarding an informal aeronautical study of Sitkinak Island. The referred to the FAA for study is located at Whirlpool Pt. in lieu of that described in paragraph one above.
3. Appendix C is a copy of a letter from the Bureau of Land Management regarding site availability. The site referred to the Bureau of Land Management is located at Whirlpool Pt. in lieu of that described in paragraph one above.

Appendix A – Chartlet

Appendix B – FAA ltr of 10 August 1959

Appendix C – BLM ltr of 20 August 1959
