On 01/28/09 **Charles Bliley** said: I served aboard during **1969-1971** and ... Worked in the LORAN A building prototypes and evaluating field modifications. Was there when the private plane 'crashed' on the base by hitting a sand dune and snagged the rutter in the guy wires of the LORAN A tower on the north side of the base. Great place to work.

Served 1983-1985 in the Supply Office with CWO4 'Lefty' Lewis and SKC 'Handsome' Frank Frawley. Never a boring moment with those two around but I learned much during my tour. Also then SK3 Mark Ferguson worked for me - just retired as SKCM. It was a great place to work especially during the summer at the 'Beach Hut'. Ended many a Friday there.
