Hi all...I was at EECEN from 84-86 as a non-rate (it was a long wait for PA school). I worked in Public Works and the Administrative office. One of my favorite memories is seeing Chief Buckles riding a moped on base coming to work and he wasn't a little guy. Near the end of my tour at EECEN I worked with funny guys Gerry Walsh and John in the administrative office. Am looking for Kelly Morgan - if anyone knows how to get in touch with her, please let me know.

ET1 on board from '84 - '87. Worked in the Solid State Transmitter shop in NSSB/FSMB/ML (Imlerville or The Mushroom Lab). Worked with CIV Gordon Childs (smartest man I ever met), and then with ET3 Jeff Graham (great friend and golf partner). CIV Dennis Eakin and ETCS Tom Arnold taught me how to play Cribbage. Worked in the summers with CIV Jim Finstemaker cutting grass. Left in '87 for LORSTA Gesashi, Okinawa Japan. Retired an ETCS and now a CG contractor.

Aaaahh, EECEN! What a fantastic place! Stationed in 'R' div from 94-97 and loved every minute. Good times at work and play. Miss the old crowd....Seannerman, Al n Alba, Big Willy, Chriss Sudekam, Lil' Penny, Russell....Too many to name. Sad to see Moore's has closed....No more 'Real Deal'...Dedicating 1 more 'Bilbee Back to Backer' to all. Drop me a line.

Hey Gang; I'm looking for the home of the LORAN Van. Remember the stepvan/ambulance that had the AN/SPN-30s, the Cesium Beam Oscillators, the big ole whip antennas? The story

on the Oscillators was that, if they shut down, don't come back! I know the van was out of EECEN, but which shop? Served on that back in the spring of 1970. Looked to see whether it had a table of it's own, but couldn't find one. Rumor had it that it went just about everywhere there was LORAN Stations. I served with ETC Miller, ET2 Noon, and ET3 Bourassa on that trip, a sixty-day, work-every-day tour of scenic Appalachia.

I was stationed at EECEN out of the boot in '77. I still go to Wildwood at least a few times every summer and take a drive down past the deserted buildings I loved calling home. Mike Penny, Billy Boyd, where are you. It was my first and best duty station in the guard. Went on to MST school, did my four, became a musician and a teacher. Those were the days! The hut, the Work room! The Cafe.

Greetings! I was stationed @ EECEN from 1981-1984, working out of NSSB. It was basically my entire active career, having arrived there after ET school. It had to be one of the most enjoyable periods of my life -- for I made some friendships there during my stay that are still active today. Yes, there were problems there, and some dynasties that ruled the center with an iron fist, but all in all I was happy to have served there. After all, it did provide me with the knowledge that I was going to be much more content in the reserves! Though New Jersey typically takes a lot of abuse, it was really a beautiful place and I'm sorry to see it go. May its memory live on in our hearts forever! Hi to Terry, Rob, Kyle, Doug, Ray, and everyone else who did their rotation through the domain of Imler! Wilbur -- rest in peace buddy... others can only imagine what you must have gone through over the years.

For those who may not be aware, EECEN Wildwood will be disestablished on 1 August 1997. A small Loran-C contingent will remain to carry on with Loran-C engineering and SMEF activities until Loran-C is turned off -- now scheduled in the FRP for the year 2000. A formal disestablishment ceremony and retirement will take place at EECEN on 1 August followed by reception at the beach hut. Then on Saturday, 2 August, the last Coast Guard Day picnic on EECEN beach will be held. It is my personal opinion that EECEN is being closed for all the wrong reasons and that the baby is being thrown out with the bath water!!! I was stationed at EECEN as an engineer between 1961 and 1964 than as CO from 1968 to 1972.
