Subj: OPERATIONAL PERFORMANCE AWARD

1. It gives me a great deal of pleasure to congratulate your entire crew on the occasion of the presentation of this 90 Day Service Award for Outstanding Performance. This FESEC award was earned for maintaining a 99.997 percent usable LORAN C signal from 01 April 1992 to 28 June 1992.

2. Achieving this outstanding level of performance sets an example for all of us throughout the Far East Section. Stations in this part of the world have a lot of factors working against them such as difficulty in getting parts and equipment, ageing transmitters, generator power, and high crew turnovers due to restricted duty. This award provides tangible evidence of the many hours of hard work and dedicated effort made by the crew at Gesashi and gives us all great pride. Keep up the good work.
